ABOUT

COREWAVE IT SERVICES

CoreWave IT Services is a forward-thinking Zambian technology company specialising in cyber security and end-to-end information technology (IT) solutions. Established to help organisations navigate an increasingly complex digital landscape, CoreWave delivers secure, scalable and innovative technology services that enable businesses to operate efficiently, safely and competitively in a rapidly evolving world.

With cyber threats growing in frequency, sophistication and impact, organisations face unprecedented risks to their data, operations and reputation. At the same time, businesses must modernise their IT environments to remain agile and resilient. CoreWave exists at the intersection of strategy, security and technology, helping clients protect their digital assets and use technology as a strategic enabler for growth.

Our approach combines deep technical expertise, industry best practice and a client-centric mindset. From small and medium enterprises to large corporations and public sector institutions, we partner with organisations across industries to build secure, reliable and future-ready IT ecosystems — and, as a ZICTA-licensed dealer, we also supply the equipment that powers them.

OUR VISION

To be a trusted leader in cyber security and IT solutions, empowering organisations to confidently embrace digital transformation while safeguarding their critical information and systems.

OUR MISSION

To deliver robust, innovative and cost-effective cyber security and IT solutions that protect our clients' digital assets, enhance operational efficiency and support sustainable business growth. We are committed to building long-term partnerships founded on trust, excellence and measurable value.

SELECTED PROJECT **EXPERIENCE**

01 Network Gateway & Server Rack Installation

Year: 2026

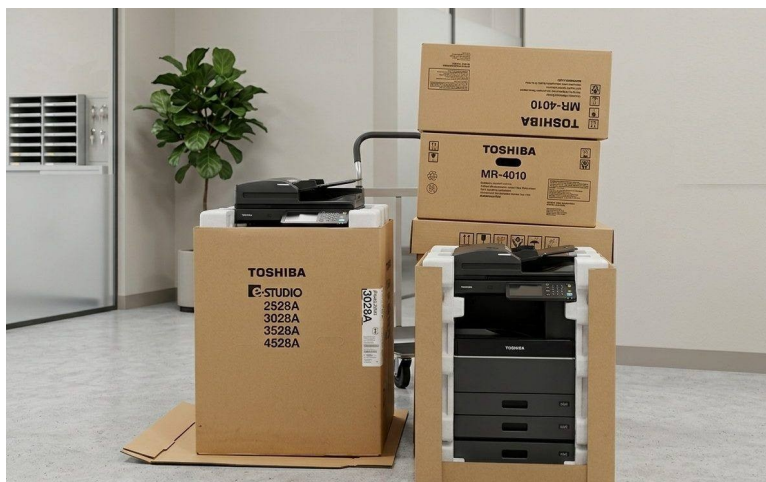

Supply, installation and configuration of network gateway equipment within a dedicated server rack, including rack-mounting of switching and patching hardware, structured patch cabling, cable management, power distribution and end-to-end connectivity testing before handover.

02 Supply & Delivery of Multifunction Printers

Year: 2026

Supply and delivery of Toshiba e-STUDIO multifunction printers (2528A / 3028A series) together with MR-4010 automatic document feeders, delivered new in original manufacturer packaging.

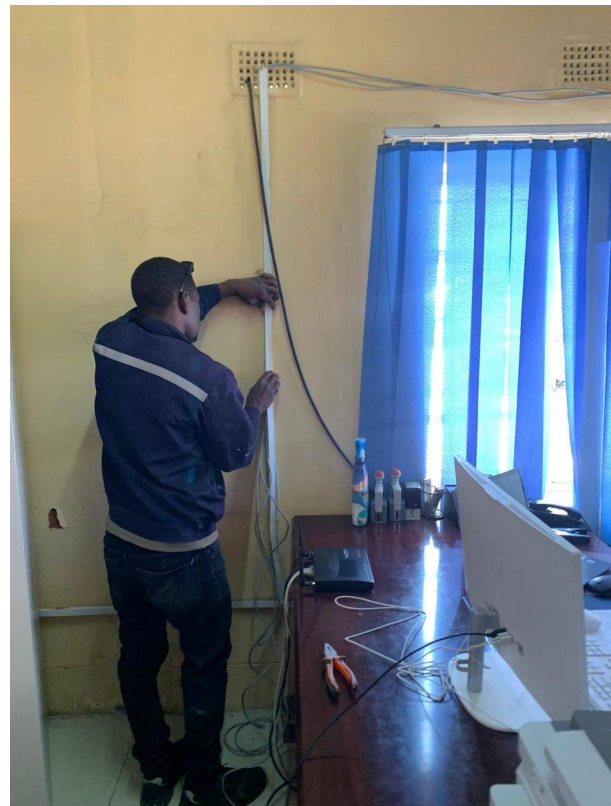

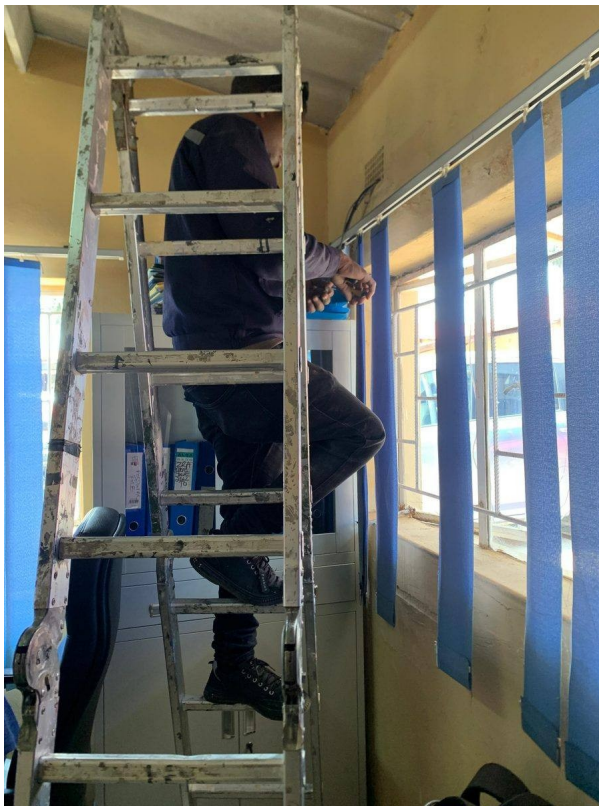

03 Network Design & Deployment

Year: 2026

Design and deployment of an office local area network. CoreWave planned the cable routes, installed wall and ceiling trunking, ran structured data cabling to each workstation, and set up the router and wireless access, leaving a neat, well-documented installation that is easy to maintain.

- Site survey and network design
- Cable routing and trunking installation
- Structured data cabling and termination
- Router / Wi-Fi configuration and testing

Network deployment works in progress: ceiling cable routing (left) and trunking installation (right).
